Date: 22nd October 2024

TO WHOMSOEVER IT MAY CONCERN

I am pleased to write this letter of recommendation for Johan Vijay Braggs, an outstanding alumnus of N.M.A.M. Institute of Technology, Nitte (Deemed to be University), Udupi, Karnataka, India. Johan completed his Bachelor of Engineering in Computer Science and Engineering in 2024, where he demonstrated an exceptional aptitude for Computer Science and related fields.

Throughout his academic journey, Johan excelled in subjects such as Business Intelligence, Database Management Systems, Machine Learning, Data Analytics, Python Programming, and Web development. These courses formed the backbone of his technical expertise, enabling him to develop strong data-handling, analytical, and programming skills.

His final-year project, titled "MindCare AI, a chatbot for mental health support" showcased his ability to apply advanced data science techniques to solve real-world problems, combining innovative methods from machine learning and data analysis to provide actionable insights. In addition to his academic achievements, Johan consistently demonstrated the ability to work effectively in teams, often taking on leadership roles in group projects. In addition to his academic achievements, Johan has been an active participant in departmental activities. He has shown leadership potential and has been a reliable team member in various group projects and initiatives.

I believe Johan's solid foundation in computer science, coupled with his keen interest in Data Science and Machine Learning, positions him exceptionally well for graduate studies. His curiosity, analytical mindset, and strong problem-solving abilities suggest he would be a valuable and insightful addition to your academic community.
