LETTER OF RECOMMENDATION

It's a pleasure to recommend Krishna Katkar, who was my student during the Bachelor of Computer Applications (Science) program at ASM's College of Science, Information Technology and Management (ASM CSIT), affiliated with Savitribai Phule Pune University. She was part of the 2017–2020 batch, and I had the opportunity to teach her across multiple semesters.

Krishna was always attentive, sincere, and eager to learn. She had a natural curiosity for tech-related subjects and was particularly good at applying concepts in practical ways. I especially remember her approach to her final year project—she handled it with thoughtfulness, creativity, and a strong sense of responsibility.

In group work and class discussions, she was respectful, calm, and collaborative. She brought a steady presence to every activity and was someone both her classmates and professors appreciated working with.

I'm confident that Krishna will do well wherever she goes next. She has the mindset, maturity, and work ethic to adapt, grow, and contribute meaningfully.

LETTER OF RECOMMENDATION

I'm pleased to write this letter in support of Krishna Katkar, who was one of my students during the Bachelor of Computer Applications (Science) program at ASM's College of Science, Information Technology and Management (ASM CSIT), affiliated with Savitribai Phule Pune University. She was part of the 2017–2020 academic batch, and I had the opportunity to teach and closely interact with her throughout the course.

From the very beginning, Krishna stood out for her quiet confidence and genuine curiosity. She consistently demonstrated a strong work ethic, a thoughtful approach to problem-solving, and an eagerness to dig deeper into concepts beyond what was taught in class. Whether in lectures or practical sessions, she always brought a level of focus and engagement that made her a pleasure to teach.

One thing I particularly appreciated was her ability to balance technical aptitude with creativity. Her final year project was a perfect example of this blend—it was not only technically sound but also well thought out and effectively executed. She was always willing to take initiative, collaborate with her peers, and seek feedback to improve her work.

Beyond academics, she carried herself with maturity and a positive attitude. She was respectful, approachable, and always ready to lend a hand or share her insights during group activities. Her calm demeanor and team spirit made her a valued member of the class.

I believe she has both the mindset and the skills to succeed in any path she chooses next. With her discipline, drive, and ability to learn and adapt, I'm confident she will make the most of every opportunity that comes her way.
